spider podium

The 'flexible, universal travel dock and gadget grip'

Providing an eye catching and exceptionally unique alternative to the standard proprietary dock such as the iPhone dock, Blackberry cradle or SatNav holster.

Imagine your very own personal in dash GPS and movie player console! Holster your SatNav GPS on the dash of your car, hook in your charger, then just grab it and go when done!

Spiderpodium can be utilised as an accessory to virtually any handheld portable device available. Spiderpodium is very lightweight and compact making it particularly portable. The product's compact nature allows for Spiderpodium to be tucked into a pocket or packed into a hand bag with ease. Spiderpodium is a fantastic travel companion.

Spiderpodium leaves no footprint of its having been used, which is particularly beneficial as a solution to theft of car SatNav & GPS units which may have large permanent plastic units attached to the dash and windscreen.
